

# St. Joseph's Nursery Class Numeracy

## Sorting into Size

Read the story of Goldilocks and Three Bears with an adult. If you can't find it, you can listen on you tube, or Book Trust website.

Then sort different items into sizes, small, medium and large. The bed, chairs and bowls.

## Numbers and Shapes

Can you make your own number block from the tv programme? Look through you recycle bin for a box, bottle or you can use your lego.

Can you write a number on it? You might need an adult to help you.

## Counting

Can you put your own clothes on, when you get up, in the morning, one at a time, counting as you do this?

Can you count backwards when taking your clothes off when it's time for bed?

## Patterns

Can you draw round your hand? You might need an adult to help you.

Can you add stripes, dots/spots to your hand? What other pattern can you think of?

## Counting Numbers

Get a dice from a board game in your house. If you don't have one, ask an adult to shout out a number.

If you roll four on the dice, then complete four big star jumps. Can you think of different ways to move your body?
