

# St. Joseph's Nursery Class

## Growing Giraffes Group

Miss Boyd

### Exploring Fun

The children have been learning about The Senses. They used our eyes to see, our ears to listen, our hands to touch, our tongues to taste and our nose to smell. We went out to the nursery garden to use some of our senses.

### Nature is Fun

In technology, the children used an Ipad to find out more about insects. They then made some bee pictures using yellow and black paint and crepe paper.

### Musical Fun

The children had fun outside with some musical instruments. The children were learning how to keep a beat.

### Outdoor Fun

The children have been outside looking at the different flowers and plants in the nursery garden. They found daffodils and pink and white daisies.
